

PROPOSAL TO CHANGE

SSD MAILING LIST

DISADVANTAGE OF CURRENT MAILING LIST

- Cannot send hypertext
- When not careful, message is garbled
- Difficult to send bi-weekly agenda
- Cannot send attachments

USE MAILMAN AT BNL

- Can use attachments
- Hypertext goes through
- Can copy old SSD mailing list to new one
- A BNL mailing list
- Works well for HFT group
- A little harder to see archived messages

CURRENT ARCHIVE

Works well

The screenshot shows a web-based email archive interface. At the top, there is a navigation bar with buttons for 'Add Message', 'Members', 'Email', 'Admin', 'Frames', and 'Help'. Below this, the archive is titled 'Messages Inline:' and 'Outline:'. The 'Messages' section shows a list of messages with their subject lines, authors, and dates. The 'Outline' section shows a list of messages with their subject lines, authors, and dates. The interface is designed to be user-friendly and easy to navigate.

Add Message  to: "SSD Discussions"
